Ashlar-Vellum™ Releases Graphite™ v12

March 4, 2019, Austin, TX. Ashlar-Vellum announces the release of Graphite version 12, their 2D/3D wireframe CAD software on Mac and Windows.

Graphite v12 offers the following:

- 2 to 25 times faster on zooms, pans and moves, things users do most
- Support for the latest operating systems including Mac 10.14 Mojave and Windows 10
- Support for the latest DXF/DWG up to AutoCAD 2019
- New informative file import window
- Alignment setting for hatch origins
- Symbol access for text boxes including \pm , $^\circ$ and \varnothing
- Various bug fixes and enhancements of existing features

“The speed of Graphite v12 is blazing compared to our three most recent versions, especially on the Mac. Users should test it for themselves, on their own systems, for it to be really believed,” said Robert Bou, President of Ashlar-Vellum.

[Download the Graphite v12 released software here.](#)

Those who would like to see for themselves can download the program and run it in demo mode (no saving) or contact Ashlar-Vellum for a two-week trial code for to evaluate the software.

Those who pre-purchased the upgrade can download the Graphite v12 final release here then use the new serial number and registration code emailed to them upon purchase to run the software.
